FOREIGN LANGUAGES

Armenian (Native P)
German (Native P)
French (Professional WP)
English (Professional WP)
Spanish (Limited WP)
Italian (Limited WP)
Russian (Elementary P)

WP: Working Proficiency
P: Proficiency

IMPORTANT COURSEWORK

Foundations such as Algorithms & Data Structures, Probabilities & Statistics, Theoretical CS, Formal Methods, Functional Programming, Data Modelling and Databases

Introduction to ML, AI in Education, **Information Retrieval**, LLMs, AI for Science Seminar

Human Computer Interaction, Fundamentals of **Web Engineering**

Autonomous Mobile Robots, Soccer **Analytics**, **Game Theory**, Introduction to **Microeconomics**

INTERESTS

Programming, web development, app design, teaching, tutoring, UI/UX design, video editing, photography, content creation, chess, problem-solving, data-driven projects, working on practical solutions, developing new ideas, interdisciplinary collaboration

PROJECTS

React Native Task Management App – (HCI project) Task management app with to-do-list, prioritization...

Conflict Events Map Website – Built mainly with React and Express.js in a group of four students, data from ACLED

"Introduction to programming" Website – Created my own website for my job as a teaching assistant in WIX Studio

voCHabular Web App – Voluntarily built a language learning platform in WIX Studio

Portfolio Website – Digital version of my CV

Matura Thesis Video – Recorded and edited my own thesis video.

Soccer Analytics – Analyzed soccer match data (JSON) for player and team insights and produced visuals for a report

IML & Compiler Design coding projects throughout the semester
